# **Law of Attraction -- Attraction with Rituals and Mind Power**

Rituals are an important part of the manifesting process. Those who are greatly successful with applying the law of attraction understand that there is a sacred method to it. You perform rituals all the time, every day you have a set schedule in which you get up at a particular time and drive to work or catch the bus or train. When you brush your teeth that is a form of ritual.

To successfully apply the laws of attraction you need to create a steady ritual of learning and manifesting practices. Without those rituals you are only skimming the surface of the attraction process. Pasting pictures around your home is merely goal setting. Your mind sees those pictures and you are reminded of what you want to attract but it is the rituals that allow the law of attraction to help you in manifesting what you want faster.

### **Rituals Connect You to Your Source**

As you go about your day you continue to activate the law of attraction and what you get is more and more of what you are already living. Have you ever notice that few people ever really change their lives. Few people ever really manifest true abundance in their lives because they hold on to a ritual that has not changed. The law of attraction is a powerful tool. Use it with the correct ritual and you can have an outstanding life of abundance, ignore it and your life will be a repeat of what you are now experiencing.

When you use a good ritual with the law of attraction you begin to move mountains and manifest what you desire a whole lot faster than you could ever have imagined. With each practice of the ritual you become a more powerful manifesting magnet. What you can come easily and faster again and again.

The ritual trains you and connects you to the creative source that is necessary to manifesting.

### **The Mind is Like a Wild Horse**

The human mind is like a wild horse and without proper training it can be a weapon used against yourself. This is where rituals help in training the mind so that you can best use the law of attraction to gain success.

To fully succeed with the law of attraction you need to learn the secrets of the inner mind and how to tame the mind to bring you what you desire to manifest in your life. Every spiritual teacher who understands the laws of attraction teach the necessity of learning the power of the inner mind. Law of attraction without the training of the mind is quite wasteful. It is like having a box of matches but never knowing what fire is or how to use it.

### **There is Value in Ancient Practices**

Many law of attraction teachings may seem to esoteric for most people but really there is nothing scary or other worldly about them if you take the time to understand the science behind them. Many of these practices actually make the laws of attraction a lot easier to apply and your success rate even more outstanding.

If you have always don't what you have been doing chances are you will always attract what you have been attracting. However if you learn to dive into the unknown you can begin to manifest greater results. The mind is the kingdom to manifesting and the law of attraction follows the mind.
